METAMASK

A crypto wallet & gateway to blockchain apps

Over a million downloads are counting

What is MetaMask?

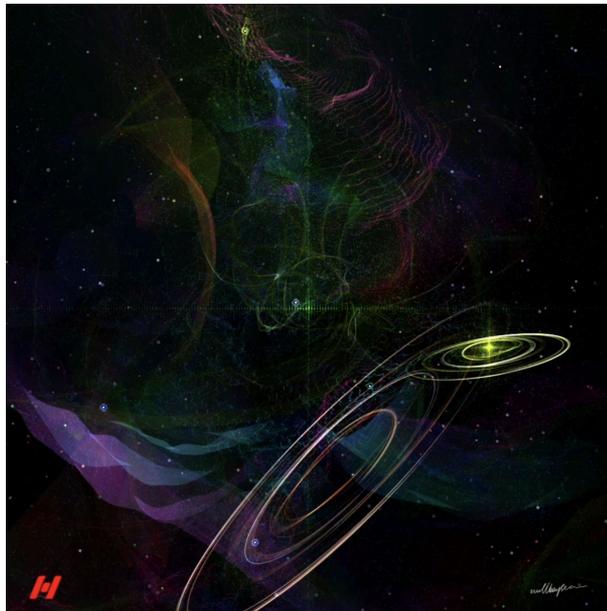

Metamask is a crypto wallet, it provides an essential utility for blockchain newcomers and token traders. It's your gateway to the crypto world.

It's non-custodial, no one can freeze your asset.

BUT, you are also *fully responsible* for your own assets.

Three main functions.

1. **Storage:** you can store all your crypto, NFTs and digital assets in the wallet. It mainly supports ERC standard tokens, which are built on Ethereum blockchain.
2. **Swaps:** Swap your tokens with different pairs directly on Metamask.
3. **dApps:** A decentralised application. The connection to the wallet is like how you login to Facebook with email address. You are always in control when interacting on the new decentralized web.

Set up a Metamask to receive our generative art membership NFT

It just takes a few minutes and it is simple.
Please follow the guide step by step.

Download MetaMask on

- iOS: [app store](#)
- google: [playstore](#)

Help us improve MetaMask

MetaMask would like to gather basic usage data to better understand how our users interact with the mobile app. This data will be used to continually improve the usability and user experience of our product.

MetaMask will...

- ✓ Always allow you to opt-out via Settings
- ✓ Send anonymized click & pageview events
- ✓ Send country, region, city data (not specific location)
- ✗ Never collect keys, addresses, transactions, balances, hashes, or any personal information
- ✗ Never collect your IP address
- ✗ Never sell data for profit. Ever!

This data is aggregated and is therefore anonymous for the purposes of General Data Protection Regulation (EU) 2016/679. For more information in relation to our privacy practices, please see our Privacy Policy [here](#).

Must be at least 8 characters

Unlock with Face ID?

I understand that MetaMask cannot recover this password for me. [Learn more.](#)

Create password

Watch this demo video,
it explains what
"Secret Recovery Phrase" is.

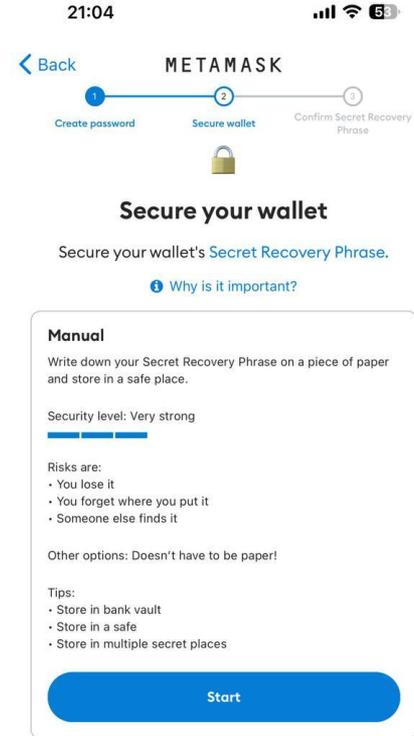

Don't risk losing your funds. Protect your wallet by saving your [Secret Recovery Phrase](#) in a place you trust. **It's the only way to recover your wallet if you get locked out of the app or get a new device.**

Secret Recovery Phrase is a private key.

— the unique, secret passcode used to authenticate and encrypt your wallet access.

You will see yours at the next step.

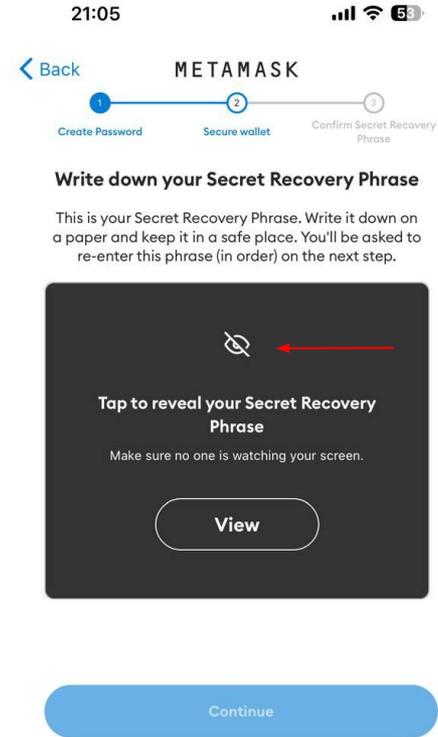

VERY IMPORTANT:

Read the Tips carefully.

Click the unlock icon to reveal the secret words. 12 words will appear.

Write them down on a paper in the same order. Put the paper in a safe place.

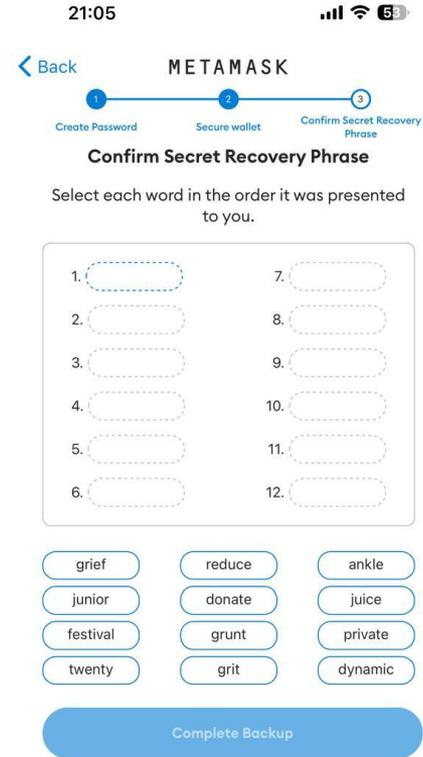

DO NOT screen shot / copy and paste and store in any digital devices.

Choose these words in exactly the same order.

This is to make sure you memorize the secret words correctly.

PS: this is a tutorial, we will not use this wallet again, so it is fine to show the phrase. DO NOT show yours to anyone.

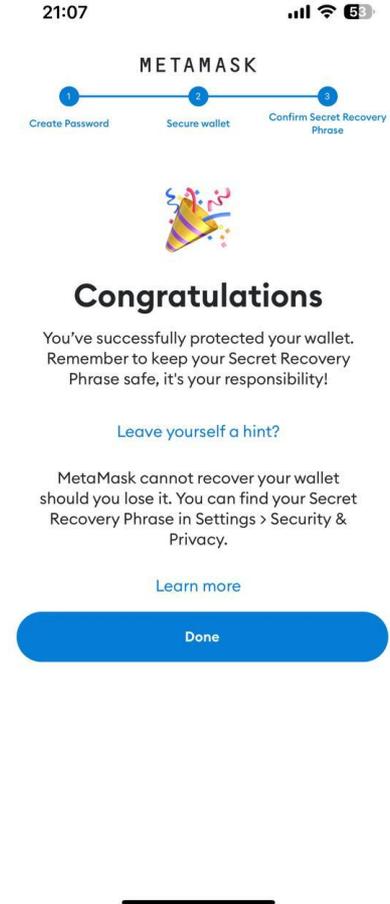

Congratulations!

Now you have successfully set up a crypto wallet.

Remember to keep the secret phrase safe. No one can help you recover the wallet and get your assets back.

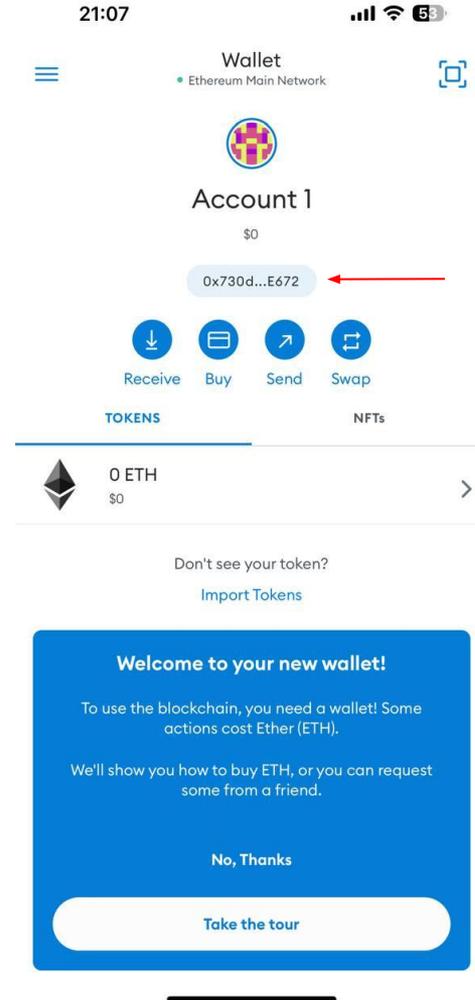

NEVER give the secret phrase to anyone.

This is the home page of your wallet.

Key information:

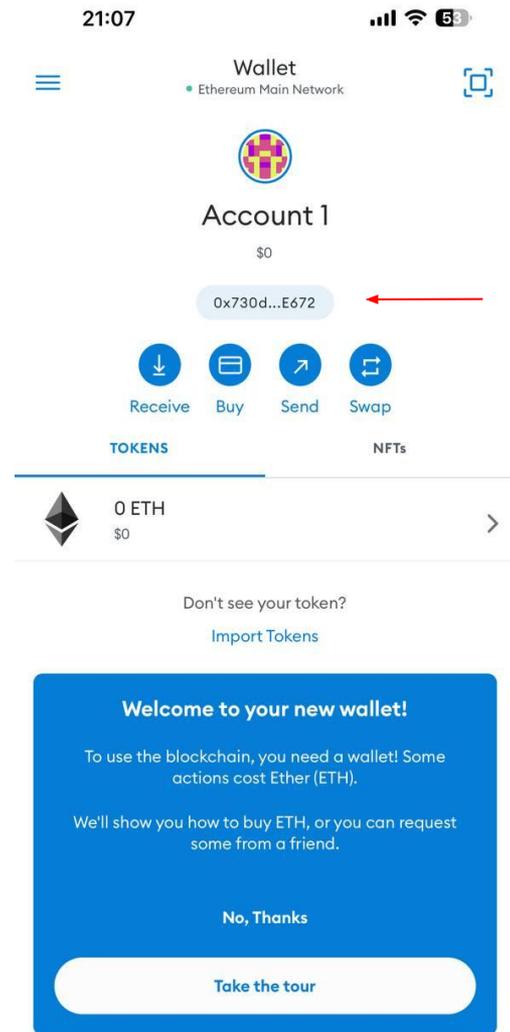

1. "Account 1": default name of this wallet.
2. "0x730d.....E672": your ETH wallet address. (simply click on it and it will be copied.)
3. "Ethereum Mainnet": the current blockchain you use.

Last Step:

Copy your public wallet address and fill in the "collect wallet address form" on Hantec Markets Australia website.

We will send you an unique generative art membership NFT with utilities and more to come!
